## April 15, 2010

### **Admin**

### **BOGM**

The Board of Oil, Gas and Mining will present 2010 Earth Day Awards at the end of this month. Receiving Earth Day Awards this year are Anadarko Petroleum, Energy West Mining, Georgia Pacific Gypsum, Questar Exploration and Production, Rio Tinto/Kennecott Utah Copper, and Simplot Phosphates.

### **Minerals**

Dana is happy to report that the Minerals Program has achieved an all-time high of 66% timeliness. That figure represents a lot of hard work on the part of staff to conduct reviews and they have also found some new ways to be more efficient and improve their processes. Way to go Minerals!

### **Misc.**

Rose Nolton joined with Shauna Crowther to organize three days of volunteer work for Habitat for Humanity. Rose and Shauna thank all those who donated their time and efforts to help those in need. Friday March 26<sup>th</sup> was the first day and twelve employees signed up. The group was split in two. The first group worked on painting and finish work and the second group worked on hanging sheet rock. The second day was April 2<sup>nd</sup> and 6 people came out to help. Everyone was put to

work hanging sheet rock. The final day is April 9<sup>th</sup> and all looks well.

And a final thought for your Thursday, tax day. There was a time when \$1200 would buy a car. Now it's the sales tax. Have a good one!
